SUMMARY

I am an Intelligent Systems student at BINUS University with a strong interest in Artificial Intelligence, Data Analytics, and Software Development. Through academic and project-based experiences, I have developed skills in Python, SQL, data analysis, machine learning, and system development. I enjoy applying analytical thinking to solve real-world problems while building practical, data-driven solutions. In addition to my technical background, my involvement in mentoring and student organizations has strengthened my leadership, communication, and teamwork skills. I am eager to contribute, learn from industry professionals, and continuously grow through internship opportunities.

EDUCATION

Bachelor of Computer Science – Intelligent Systems, Sep 2024 - Present
BINUS UNIVERSITY

EXPERIENCE

Mentor Of BSLC Even Semester 2025/2026, Binus Student Learning Community **Apr 2026**

- Mentored junior students by simplifying complex course concepts into easy-to-understand explanations.
- Facilitated a mentoring session to support students in reviewing course materials and preparing for the midterm examination.
- Encouraged active participation through interactive discussions and guided problem-solving.
- Provided academic guidance and constructive feedback to help students improve their understanding of the course.

Makrab Event Coordinator – The Night of Mystery, HIMTI BINUS **May 2026**

- Designed and coordinated the event agenda for "The Night of Mystery" to create an engaging participant experience.
- Collaborated with the organizing committee to ensure each activity was executed according to the planned rundown.
- Oversaw event flow and coordinated with related teams to ensure smooth program execution.

Staff of Buram Division at Techno 2025, HIMTI BINUS **May 2025 - Sep 2025**

- Assisted in the execution of HIMTI Techno 2025 Expo by supporting participant coordination and on-site event operations.
- Provided assistance to participants and visitors while ensuring smooth event activities.
- Collaborated with the organizing committee to support promotional initiatives and event success.

Freshmen Partner B2029 **Aug 2025 - Jan 2026**

- Mentored a group of 8 freshmen by providing academic, social, and campus-life guidance throughout their transition to university.
- Supported new students in adapting to the university environment by answering questions and sharing campus resources.
- Fostered a welcoming and supportive environment to help freshmen build confidence and engage with campus life.

- Coordinated and guided 9 freshmen throughout the university orientation program, providing academic and campus-life support.
 - Facilitated communication between freshmen and the organizing committee by delivering important announcements and addressing student concerns.
 - Collaborated with fellow Freshmen Leaders to coordinate class activities and ensure smooth participation throughout the orientation program.
-

PUBLICATION

Accepted for Publication – The 11th International Conference on Computer Science and Computational Intelligence (ICCSCI 2026)

- Developed a U-Net-based deep learning model for liver and tumor segmentation.
 - Preprocessed medical imaging datasets and evaluated model performance.
 - Co-authored the research paper.
-

SKILLS

- | | |
|-------------------|---------------------|
| • Leadership | • Critical Thinking |
| • Communication | • Adaptability |
| • Teamwork | • Time Management |
| • Problem Solving | • Mentoring |
-

ADDITIONAL INFORMATION

- **Technical Skills:**
 - **Programming Languages:** Python,C
 - **Data Analytics & Visualization :** Pandas,NumPy,Matplotlib,Tableau,Goggle Sheets
 - **Machine Learning :** Scikit-learn,TensorFlow,Computer Vision,Natural Language Processing.
 - **Tools :** Git,Docker
- **Languages:** English (Professional Working Proficiency) , Indonesian
- **Certifications:**
 - Microsoft Certified: Azure AI Fundamentals (AI-900) - Microsoft
 - Mini Course: Data Analytics — Revou
